

Robin Grote
Otterbein University
Department of Chemistry

Robin attended San Diego State University, where she completed her B.A. in chemistry. She then went on to the University of California, Irvine where she studied catalysis and organic chemistry and earned her Ph.D. in 2010. She recently completed a postdoctoral research fellowship at Columbia University in New York where she studied synthetic organic methodology. As a new member of the faculty at Otterbein University she will teach courses in introductory and organic chemistry. The research in her group will focus on catalysis and synthetic methodology.
