

What's new on Otterbein's web site?

Web Services has made new updates on the Otterbein external sites. The top level pages of the web now have new wide banners that highlight new photography: [Academics](#), [Admission](#), [Calendar/News](#), [Giving to OC](#), [Student Life](#) and [Resources](#).

We are in the process of converting all of the department sites into a standard format and adding more content and photos. These sites have been completed: [Chemistry and Biochemistry](#), [Education](#), [Equine Science](#), [Health and Sport Sciences](#), [Life and Earth Science](#), [Physics and Astronomy](#), [Music](#) and [Religion and Philosophy](#).

New on our external site:

- "[Otterbein Confidential](#)" student blogs give prospective students a window into life at Otterbein.
- The [Class of 2008](#) site guides seniors through the steps they need to do to graduate.
- The entire [Student Life](#) section of the site was redone in January '08.
- The [Diversity](#) site has been redone and expanded.
- The [Center for Community Engagement](#) site has been expanded.
- The [Alumni Online Community](#) home page is changed several times a month by Bonnie Robinson, Assistant Director of Alumni Relations, to reflect all of the resources and activities for our alumni. On this site, the [Cardinal Migration](#) pages profile a trip to Salt Lake City that the Office of Alumni Relations is hosting this spring. Also from the Alumni Online Community pages, alumni can enter the [Alumni Online Directory](#) to keep in touch with classmates.
- Profiles and biographies of the Board of Trustees are online [here](#).
- Prospective students were sent a mailer with a special web address to sign up for [Academic Interest Day](#) online.
- Bon Appetit, our campus food service provider, has launched a [new website](#), which is linked from our Resources page.
