

## **Athletic Training Program Learning Goals and Student Learning Outcomes (SLO's)**

The following list of goals were developed to meet the Mission of the Athletic Training Program and University wide student learning goals (KMERI)\*. Please note that the goals set below are based on flexible, on-going and evidence-based processes that will change in accordance to the annual athletic training review and outcome assessment procedures as required by the Commission on Accreditation of Athletic Training Education Programs (CAATE) as well the University's annual and long range reporting processes. Accordingly, the Athletic Training Program goals, measurement and assessment practices will change and be enhanced through its own multi-level annual review processes.

\*Knowledgeable, Multi-literate, Engaged, Responsible and Inquisitive

***Goal 1: Students will obtain skills to critically analyze and synthesize their knowledge to ultimately become a qualified entry-level Athletic Trainer.***

***Goal 2: Students will develop competence and fully utilize the tenants of Evidence-based Practice into both the clinical and academic settings of Athletic Training.***

***Goal 3: Students will develop life-long learning skills (Critical thinking, ability to reflect, ethical practice) that include incorporating the "Foundational Behaviors of Professional Practice" into all aspects of the learning process and also gaining an understanding that the athletic training and allied health professions are always evolving.***

***Goal 4: Athletic Training majors will participate in a minimum of the three of the five "Cardinal Experiences."***

***Goal 5: Students will develop broad-based communication and written skills appropriate to meet both the Athletic Training professional standards as well as the University's and Department's goals to develop a well-rounded liberally educated and quality entry-level professional.***

***Goal 6: Students will gain an understanding and actively participate in activities that will contribute to the professional health and growth of the Athletic Training Profession.***

***Goal 7: The Athletic Training Program will maintain a minimum of 70% passing rate on the Board of Certification (BOC) examination***
