Current Salary Range:

Otterbein faculty/staff went above and beyond to support you:

More than just another number. Filled with people who truly care about your life after school.

I feel that the Education department faculty are not only great instructors, they seem to know the latest techniques, and are constantly staying up to date with them. I speak highly of them to my students and peers.

My current position is a direct reflection of the curriculum and opportunities facilitated by the professors in the MSAH program.

All of the MBA professors were engaging and inspiring.

Overall, I thought the program was flexible and willing to cooperate with my schedule while remaining challenging.

The faculty in the nurse anesthesia program truly cared about us, more than just as students.

The Otterbein Graduate Experience!

Well worth the investment!

The Masters in Math professors did a great job linking the course work to our jobs in education.

Nothing short of great.

If you're looking for an experience tailored to your unique dreams and career aspirations, where you can experience meaningful development alongside motivated peers and under seasoned professors, the Otterbein Graduate program is the place to be.

I really liked how Otterbein offered hybrid classes.

Felt very well prepared for my board certification after completing Otterbein's program.
