

“ Being a member of Eta Sigma Gamma has improved my skills as a future health education specialist. I’ve learned various ways to give back to others in the community in a fun and educational way. I’ve been able to discuss “hard topics” with students like sexual health and Narcan, to bring awareness to the issues we face in our local communities. I can take all the events and volunteering I’ve done within the organization and apply it to my future profession of public health. I want to learn more about where I can use the skills I gained from ESG to help communities outside of Otterbein. ”

— Leylani Naphier '22
