

Class of 2021 **UNDERGRADUATE OUTCOMES**

Institutional Research and Student Success and Career Development (SSCD) partner each year to collect data on the outcomes of our undergraduate students. An electronic survey was launched in late 2021 and additional research was conducted by SSCD staff and faculty and staff from a variety of academic departments through the beginning of March 2022.

We are pleased to share that an 74.9% knowledge rate was achieved, which is a combination of survey responses by recent graduates and additional information collected through social media by Otterbein staff and faculty and by direct outreach to alumni. This research reveals that 99.2% of the undergraduate class of 2021 was either employed, enrolled in graduate school, or serving in the military within six months of graduation.

When we disaggregate the data, you'll find that 79.3% are employed, 0.7% are serving in the military, and 19.2% are enrolled in graduate school.
