

Class of 2023 **UNDERGRADUATE OUTCOMES**

Each year Student Success and Career Development (SSCD) collect data on the outcomes of our undergraduate students. An electronic survey was launched in November of 2023 and additional research was conducted by SSCD staff in January-February 2024.

We are pleased to share that an 82% knowledge rate was achieved which is a combination of survey responses by recent graduates, additional information collected through social media by Otterbein staff and faculty, and by direct outreach to alumni. This research reveals that 96% of the undergraduate class of 2023 was either employed, continuing their education, or participating in the military, service, or volunteer program within six months of graduation.

The results have shown that 82% are employed, 1% are serving in the military, and 13% are enrolled in a program to seek further education.
